Curriculum

The curriculum offered in the setting encourages children to develop positive attitudes about themselves as well as to people who are different from themselves. It encourages children to empathise with others and to begin to develop the skills of critical thinking and tolerance.

Our environment is as accessible as possible for all visitors and service users. If access to the settings is found to treat disabled children or adults less favourably then we make reasonable adjustments to accommodate the needs of all disabled children and adults. We do this by:

- making children feel valued and good about themselves;
- ensuring that children have equality of access to learning;
- undertaking an access audit to establish if the setting is accessible to all children;
- making adjustments to the environment and resources to accommodate a wide range of learning, physical and sensory impairments, and abilities.
- making appropriate provision within the curriculum to ensure each child receives the widest possible opportunity to develop their skills and abilities, e.g. recognising the different learning styles of some girls and boys, observing the Characteristics of Effective Learning as an effective way of understanding how children learn best and planning next steps with these in mind.
- positively reflecting the widest possible range of communities in the choice of resources;
- avoiding stereotypes or derogatory images in the selection of books or other visual materials;
- celebrating a wide range of festivals;
- creating an environment of mutual respect and tolerance;
- differentiating the curriculum to meet children's special educational needs and a broad range of abilities.
- helping children to understand that discriminatory behaviour and remarks are hurtful and unacceptable, as well as teaching children how to develop tolerance and compassion.
- ensuring that the curriculum offered is inclusive of children with special educational needs and children with disabilities;
- ensuring that children learning English as an additional language have full access to the curriculum and are supported in their learning; and
- ensuring that children speaking languages other than English are supported in the maintenance and development of their home languages.
- Providing positive role models, particularly for groups underrepresented in the Children's Centre staff e.g. men.

Valuing diversity in families

- We welcome the diversity of family lifestyles and work with all families.
- We encourage children to contribute stories of their everyday life to the setting.
- We encourage parents/carers to take part in the life of the setting and to contribute fully.
- For families who speak languages in addition to English, we will develop means to ensure their full inclusion.

Food

- We work in partnership with parents to ensure that the medical, cultural and dietary needs of children are met. We then ensure that our catering staff (Caterlink) have the vital information they need to provide dietary requirements of the children.
- We help children to learn about a range of food, and of cultural approaches to mealtimes and eating, and to respect and celebrate the differences and similarities among them.

Meetings

- Meetings are arranged to ensure that all families who wish to may be involved in the running of the setting.
- information about meetings is communicated in a variety of ways - written, verbal and in translation - to ensure that all parents have information about and access to the meetings.

Monitoring and reviewing

- To ensure our policies and procedures remain effective we will monitor and review them annually to ensure our strategies meets the overall aims to promote equality, inclusion and valuing diversity.
- We provide a complaints procedure and a complaints summary record for parents to see.
